

The Fountains

The Fountains will be a mixed-use project with shopping, dining, and office complexes designed on a "Main Street USA" theme. The unique storefront environment will host some of the best specialty lifestyle retailers and restaurants, and promises to attract shoppers from The Galleria, a new regional mall anchored by Nordstrom, Macy's, and Crate and Barrel, and recently named one of the top ten malls in the U.S. (*Retail Traffic*, April 2005). The center's design in architecture, landscape, walkways, dining areas, water features and other aesthetic elements make it a comfortable and interesting destination for shopping as well as socializing.

We're proud to welcome to The Fountains the following retailers: *Whole Foods, Chico's, Lucy, Orvis, Z Gallerie, Ecco Shoes, Boudin Bakery, Euro Walk, Soma and White House/Black Market.* We're presently in lease negotiations with many other similarly exciting tenants!

Ground was broken in June 2006, and the images below show the site work that has been done. We look forward to our Grand Opening in fall/winter 2007. Check back often to see progress on the site!
